LARKS HEAD KNOT

SQUARE KNOT

Start with the left cord crossing over the middle cords and under the right cord to make a figure 4.

2. The right cord will go behind the middle cords and up through the '4 hole' Pull it all the way through.

5. The left cord will go behind the middle cords and all the way through

KEEP GOING to steps 4-6 (same steps but in reverse)

3. Slide the knot to the top, tighten by pulling horizontally.

the hole on the right. 6. Slide the knot to the top, tighten by pulling horizontally.

ONE COMPLETE **SQUARE KNOT**

4. Complete the square knot by doing the same steps but starting with the right cord

You can count these side bars to know how many square knots you've tied (3)

HALF SQUARE KNOT

Start with the left cord crossing over the middle cords and under the right cord to make a figure 4.

2. The right cord will go behind the middle cords and up through the '4 hole'. Pull it all the way through.

3. Take your tie cords and slide the knot to the top, tighten by pulling horizontally.

Exactly the same as the first half of the square knot!

This knot in repetition will cause your knots to spiral around the inner cords. When you've done about 5 knots, adjust the spiral so your tie cords rotate. Start again with the cord that is on the left.

(view online video for full demonstration)

HORIZONTAL CLOVE HITCH KNOT

@MOSS.POINTS.NORTH WWW.MOSSPOINTSNORTH.STORE

Using an extra cord as the filler cord, loop the working cord around the filler cord. Make sure to pass it from back to front through the horizontal loop it makes below the filler cord.

Loop each cord twice around the filler cord.

Tighten and adjust each loop as you go.

DIAGONAL CLOVE HITCH KNOT (LEFT TO RIGHT)

Lay the filler cord diagonally over the other cords.

Loop the working cord up over the filler cord. Make sure to pass it from back to front through the loop it makes below the filler cord.

Adjust the first loop up to the top of your filler cord.

Loop each cord twice around the filler cord.

Tighten and adjust each loop'as you go.

DIAGONAL CLOVE HITCH KNOT (RIGHT TO LEFT)

Lay the filler cord diagonally over the other cords.

Loop the working cord up over the filler cord. Make sure to pass it from back to front through the loop it makes below the filler cord.

Adjust the first loop up to the top of your filler cord.

Loop each cord twice around the filler cord.

Tighten and adjust each loop as you go.

ALTERNATING SQUARE KNOT

Typical square knots are tied using 4 cords, for alternating knots, use 2 cords from neighboring knots above to tie a square knot underneath them.

The original inner cords of neighboring knot groups will tie the knot around the original outer cords, alternating back and forth
